

**DYES.....****DRIMARENE K**

Fibre reactive dyes used cold to warm, for natural fibres (not wool). Strong, brilliant, intermixable colours with excellent fastness. Long term stability in liquid form. Tie dyeing, immersion & low water immersion dyeing, hand painting, and printing. 50g dye will colour approx 1kg of dry fabric weight to deep shade. Only requires soda ash (fixative).

Yellow 4G	Blue 2RL	50g	15.20
Golden 2R	Turquoise 2B	100g	29.10
Orange (mix)	Brilliant Green (mix)	250g	66.00

Violet	Brown		
Purple	Black		
Thickener			
Wash		118ml	8.75
		236ml	16.50
Film sheets	A4	8 pack	21.50

**NAPHTOL & DIAZO (azoics)**

Cold water azoic dyes for natural fibres. Instantaneous colour when naphthol & diazo combine. Colours are earthy & rich - but no turquoise or bright green. All naphthols react with all diazos - but not always very well. Excellent fastness to light & washing. Resistant to bleaching. Can be hand painted or dip dyed. Used in batik work. Simple to use once you understand the process & recipe... Very economical.
