**NAPHTOL & DIAZO (azoics)**

Cold water azoic dyes for natural fibres. Instantaneous colour when naphthol & diazo combine. Colours are earthy & rich - but no turquoise or bright green. All naphthols react with all diazos - but not always very well. Excellent fastness to light & washing. Resistant to bleaching. Can be hand painted or dip dyed. Used in batik work. Simple to use once you understand the process & recipe... Very economical.
